## My Grandpa Conneth Lee Dunson

My great great grandpa Conneth Lee Dunson was born on April 9, 1926 at Mcguffey Ohio. Then drafted in WW2 then he was in the Airforce and he loved his job. His job was a pilot in the war.

Then he had siblings but he was the oldest and he also had 4 brothers. Also all of his grandpa's were in the military at the time. That's how he wanted to be in the military. That's how he liked the military. And found his love for airplanes and being a pilot.

My grandpa also had great stories. My mom said her favorite story was how he was talking about his friend Buzz Aldrin. Another one was how he was in the m+m store.

I also found out that we have some things in common like how we love planes and coke-a-cola and I learned that he went to the coke-a-cola store in Las Vegas.

One job that he had was working at a casino in Nevada. When it opened he was a WW2 pilot at the time. My mom said he loved his job. But he also spent his money at the casino.

Also my mom said he worked for Area 51 but he could not tell anyone about what he did at his job. My mom also said that he worked for NASA in the 1960s he became really good friends with Buzz Aldrin and that is how he had some good stories.

He had some hobbies. One of his hobbies was working on planes. another hobby was that he worked with his son on boats. But his favorite thing to do was to do anything with planes.

Grandpa Bootsie was really fun. My mom said that he talked a lot about planes and his friend.

I learned a lot about my grandpa Bootsie. He was really fun to talk about. One thing was that he was an assembler in the aircraft.
