John Toone

1813-1893

Utah Pioneer

John Toone was a pioneer and was born April 10 1813 and married to Emma Prosser. John lived in the city of Birmingham England. he was oldest of fourteen kids born to John Toone (1787) and Elisabeth Reading Toone. he lived in a large family of seven sons and seven daughters. Five of the kids died as babies. They lived at Mount Nod Hill Farm house which was built by his grand father. John grew up in a wealthy family so he learned his manners and he learned to work hard. John play his violin in the royal orchestra of Queen Victoria. When John moved to America he married a lovely young woman Emma Prosser. Also they made their home in Lemaiten Island. Were six kids of eight were born and two were buried. A few years later the couple got baptised. Then they had a beautiful baby girl. 3 months later the family moved to ~~Mont~~ Mirech. Sadly baby anne got very ill at three months old and she die. Also they had to bury her at sea. I imagine if you had to do that you would just have to wrap her in a blanket and trough her in to the sea. Years later

Small Pocks hit. Sadly Emma
died from Small Pocks. Then John's
son got Small Pocks. So John did
something about it. So he made
a small anty dot and heled his son.
then he die in 18⁹³. So that was
the life of John Toone the end.
