Lynn Sevens Kearsley

My favorite thing I learned about my great grandpa is that he called pancakes "hotcakes". My great grandpa's name is Lynn Stevens Kearsley. Lynn was born on 4-19-1917. He was born in a place called Victor, Idaho.

Lynn was 8 out of 9 kids. His brother was struck by lightning and died on the ranch. I bet that this affected his life a lot. He was probably really sad, and I bet he missed him a lot. I wish the hospital could save him but he was already dead. I wish that he was still alive so everything could be ok and I wish that everyone can be safe.

The Japanese bombed Pearl Harbor on Dec-7-1941. I bet this was a tough time for him and his family. His draft number (200) was selected and he entered the navy and served in Pearl Harbor. He had to leave behind a job, church duties, a wife, and a toddler. I bet this was a scary time for him because he had to leave behind a family and he never knew if they were safe or not.

Some of his hobbies and talents are riding horses, played clarinet, basketball, baseball, football, and camping trips. After he retired they traveled around in a motorhome. Also he had raised mules. Wow, that's a lot of fun stuff.

Me and my grandpa both like to play baseball and football. We both also like to go camping. I think that all of this stuff is really fun because I love baseball and football.

Some of the stuff that happened in his life was that his high school burnt down. He became an assistant postmaster in 1938. He also became the Victor postmaster after his return from the war. He also owned a grocery store.

I am happy that my grandpa did all these cool things in his life. I'm proud that he did all this stuff.
