

THE Iron County Record of last week contained the portraits and neat biographical sketches of the candidates on the Prohibition ticket for the municipal election. The prohibition move is being supported by all of the better class of citizens there, since the importance of it has become apparent. The wide awake citizens are beginning among other things to realize, that unless the liquor traffic is curtailed the Branch Normal School located at that place is going to be injured and a positive stand is being taken against the evil. "The candidates and supporters of this ticket stand for the absolute prohibition of the sale or distribution of intoxicating beverages," is a part of the platform adopted by the prohibition primary.—Dixie Advocate.
