

## Farmers Take Notice

The Cedar City Milling Co. is prepared to grind your wheat and let you have fine flour and bran in exchange, provided you have on hand at least 20% of substitutes and agree to use same in making your bread. This is the latest ruling from the Food Administrator and any miller or farmer found violating the rule is liable to prosecution. The Cedar City Milling Co. is prepared to make as good flour and do as well by you as any other mill in the state.
