

WORK ON CEDAR MOUNTAIN ROAD.

FULL CREW OF MEN WILL
BE PUT ON NEXT MON-
DAY MORNING.

FOUR PER CENT GRADE,

Commissioner Urie States Paro-
wan Canyon Road Is Nearing
Completion.

Claud Urie, county road supervis-
or informs us that the commission-
ers have authorized him to com-
mence work again on the Cedar
Mountain road and finish it before
fall.

A full crew of men will be put
on Monday morning, commencing
work near the Iron County Coal
company hotel above the Lake flat.
A four per cent grade will be main-
tained to what is known as the
"Rocky Road," and from there to
the top at a similar grade.

Mr. Urie believes that the work
can be completed this year and be-
fore snow flies.

The road commissioner also tells
us that the county road up Parowan
canyon is being rapidly finished and
the workmen have made good time
and have done excellent work.

Upon the completion of the two
roads above mentioned and the road
thru the gulch now under con-
struction, access may be had by
auto to any part of the Parowan
and Cedar mountains. This means
that tourists will be able to see all
the wonderful scenic beauty of the
neighboring mountains without hav-
ing to depend upon horses or wag-
ons.
