

## MOVING SAWMILL

—OO—

The Cedar Lumber Company yesterday moved their sawmill equipment they have had here for some time to the Burrows Flat, where it will be set up and put in operation by the 1st of March.

When this mill gets to running at full blast the company will be able to put out high grade native lumber at the rate of about 20,000 feet per day.

The moving of the equipment is under the direction of Chris Ash-down, a member of the company.
