Walt Disney

Walt Disney was an uncle to many kids. His nickname was Uncle Walt. He was born on December 5th in 1901 Chicago, Illinois. Also he died on Dec 15th, 1966. Walt Disney had 4 siblings, 3 older brothers they were not ever nice to him and one younger sister. He loved his sibling very much. Walt Diney lived on an old farm in Illinois when he was at a very young age of 4. They were very,very poor back then. Walt disney had so many many challenges in his childhood. Him and his brothers worked very hard every day for his family so then they could provide food. They mostly had milk and bread. Most of the time they didn't have enough food for their family.

After 4 years of living in Marceline, Walt moved to Kansas City when he was 19. Walt loves to draw and paint and do art projects. Walt Disney loved art so much he took art classes on weekends. Marceline is where Walt first developed a love for drawing and art. He even traded his drawings to people. Some people made fun of his drawing and paintings and they called it trash. He did not believe what they said about him even though it was not nice. A while later he got a job working on a train and selling snacks and newspapers. He walked back and forth selling snacks and newspapers. No one really wanted the newspapers so when they took one look at it for a second then they threw it away. Walt enjoyed his job working on the train and selling newspapers and snacks sometimes. He would always wish that all the people that were kind to him and his workers. But that never came true.

If Walt Disney never did those things I would not love to draw or do art. I also would not be alive if Walt Disney did not do those amazing things for all my family. Walt Diney is my 10 great uncle.

Some things we have in common is that we love to draw and do art. Also ,I love to give away my art to friends and family. I have loved to draw since I was 1. Also I really wanna be famous like Walt Disney because he made people happy and I really wanna make lots of people happy.

Uncle Walt met this man and he asked if he could make movies. He thought this might not work out but he would try. The guy said, "yes". Walt Disney made a movie called Tangled. That's one of my favorite movies.

Walt Disney had a love for making movies when he first started. He has made over 30 movies in his lifetime. He also made this app called Disney+. He is a very famous person for making movies and tv shows for little kids. Also when he got older and older more and more people started to watch his movies and shows.

I wish I could have met Walt Disney. He would be a great Uncle to meet. My ancestor has died. I have never met him in person. No one I know actually knew him in person. I have no memories of Walt Disney. No one I know knew him either. If I ever had any memories with Walt Disney I bet he would be an awesome person to meet! I'm related to Walt Disney through my grandma Smalley. She is related to so many famous people like Walt Disney.

Walt Disney was a really kind man. He lived for a long time. Also the movies he made were very famous later on in his life. Another thing is that Walt Disney always wanted to help the poor when needed.

Walt Disney met this amazing person right as he saw her. He was so in love with her. So he met her and about 1 year later he asked if she would marry him. She said yes. Walt Disney married her about a week later. Her name was Mrs Disney.

Whenever Walt Disney drew his drawings he traded them for a haircut for a free haircut for him and his wife. People usually have a normal life but Walt Disney had a fun exciting life.

Uncle Walt's family did not live on a farm any more. He and his family lived in Kansas City. Walt Disney had so many challenges in his life on the farm and in the city. Walt Disney's wife had many babies.

My uncle Walt had many many grandchildren and some kids. Later on in his life he got very, very rich because of making movies. Another thing is Walt Disney made this amazing place called Disneyland. Disneyland is a place where many people go and play on fun rides. I learned so, so much about Walt Disney.

To sum up this really really amazing story about Walt Disney is that he and his family have had so many challenges in their life but they were able to survive it. The last

thing is that Walt Disney died on December 15, 1966. His family was big. It took Walt Disney years to become famous. His kids loved him and their mother very much. Walt Disney loved his kids too. If I ever met Walt Disney it would be great to know him! I love everything that Walt Disney did!!
