

DEAD BODY OF MILFORD MAN FOUND ON DESERT

The dead body of Grant Davidson, a well known and respected citizen of Milford, was found lying in an isolated roadway sixty-five miles southwest of town last Tuesday.

Mr. Davidson had started for Larson Bros. ranch about a week previous with a wagon load of supplies. He has been in failing health for some time and it is supposed that he encountered the severe storm of last week and died from exposure and exhaustion. **He had evidently unhitched his horses and the released animalism ade their way to a spring some miles distant.** As the body was found miles from the wagon it is supposed that struggling through the storm, weakened and bewildered, the unfortunate man fought his way until exhaustion and then death overtook him.—Beaver County News.
