

B. A. C. Students Plan Annual Trek To Zion Nat'l Park

Approximately 110 sophomore and junior students of the Branch Agricultural College, accompanied by a large number of the faculty members, will make their annual trek to Zion National Park Friday of this week, spending the night in the park and returning to Cedar City Saturday.

Friday evening the students and faculty members will gather to partake of the traditional dish, mutton stew, after which a program will be presented. Numbers on the program will be given by various social organizations on the campus, as well as the faculty.

The park rangers are cooperating in making the trip an educational as well as a recreational outing. A lecture by a park official will be given Friday morning and several hiking trips will be conducted under their supervision on Saturday.

Lyle Robb is in charge of the affair, assisted by class advisor, William H. Manning, Dean of Men, Edwin L. Peterson, Mary Leone Haight and Mildred Bellisle.
