

Candidate Mayor Lunt

Mayor Lunt again appears as Republican candidate for public office. This time, Representative. If they needed a singing master, we suppose Mayor Lunt would be their candidate. In fact we believe he would be as well fitted for one as the other.

As you already know, he is now Mayor, Bishop, Farmer, Stock-raiser and what not. Is it possible that Mayor Lunt can't think of anything more to do as Mayor or Bishop. If so, we believe we can suggest a few possibilities in both fields. By natural endowment, we think he is preeminently qualified for Bishop, and should attend more closely to his religious duties. It would give him more time to collect the Fast Day donations and shake hands with every thing he sees on the street.

The State Legislature isn't exactly the right place for a benevolent representative of this county. It isn't made up of that type of men.

But Mayor Lunt is a "Vote getter". Oh, yes, Among others, he always gets the Power Company's vote.

We haven't yet quite forgotten that ten year franchise that he gave the Power Company. Nor have we yet forgotten the method he used in giving it to them. Some people may think well of the Power Company, but no one can approve of Mayor Lunt's holding secret sessions of the City Council and then rushing his ten year franchise ordinance through first, second and third reading to final passage in a regular meeting. We think the people of the city should have had a chance to say something about that ordinance. They foot the bill.

Mayor Lunt is the Power Company's candidate for Representative.
